Greetings everyone!

Tomorrow and 2pm the messaging team will hold a conference call with some of the top bloggers in the nation. We would love to have some of you on the call and are in need of a few folks willing to speak about the 30 front war and how we can go on the offense. Security issues, women's issues, faith based issues, etc. This call is to inform the bloggers that there is a shift in the movement and that we will no longer stand by while our country is attacked.

The bloggers will need talking points, quotes, links and assurance that we will push their articles out. Let's work together to change the narrative.

Please email me directly for call in information.
